The Corner Chair (-32) and Armless Chair (-36) are finished on all sides and designed to be floated in a room. All pieces but the Ottoman (-40) are standard with sectional connectors which can be removed easily in the home.

Because the Bump Chaise (-42B) can be attached to either side of a sectional, it features both male and female sectional connectors. It has a reversible cushion that requires a visible zipper on the flat end (pictured above). Please note that fabric direction will not always line up, so patterns are not recommended.

The Console (-71) features a solid maple dovetail drawer and pop-up charging station with a 110 outlet, USB and USB-C ports.

The Wood Console Tray (WC-101) option is made from solid maple and can be ordered in limited wood finish color options (see price list).
