Choose from a variety of different pieces to create an infinite number of combinations. Each piece is a single seat, and our innovative bracket system allows you to position them in any configuration; from a simple reclining sofa to a custom-sized sectional. This bracket system keeps the units together and prevents shifting or separating. Note that armless sides have exposed connector brackets, so all configurations must have an arm at both the left and right ends.

All dimensions are approximate and subject to change without notice. See www.smithbrothersfurniture.com for more information.
