

S B **CLARITY**
what life requires.

FALL 2019 UPDATE

How to Clean Clarity Fabrics:

When the soiled area is relatively small, use the following method:

1. Blot or remove excess crumbs or residue with a clean towel
2. Create a solution of mild soap (like Tide® or Dawn®) and distilled water
3. Apply the solution with a spray bottle or clean cloth/sponge
4. Gently dab the affected area (a soft brush may be necessary)
5. Rinse away soap residue
6. Blot dry with a clean towel
7. Repeat if needed

For stubborn stains or when the soiled area covers a large portion of the furniture:

Contact a local professional upholstery cleaner.

Be sure to check the cleaning code located on the deck tag of the furniture.

Cleaning professionals know the universal cleaning codes and how to treat stains.

Important Note: Keep in mind that although Clarity fabrics are highly cleanable, they are not indestructible. Avoid using harsh substances like nail polish and permanent marker around your furniture. Some substances can be particularly challenging to remove.

Find Your Clarity Performance Story:

Type	Cleaning Story*	Example Brands**	Clean with Soap & Water	Durable ***	Fade Resistant	Anti-Microbial	Made in the USA
A	Stain resistance is inherent to the yarn type and fabric construction. Liquids soak into the weave, but can be dabbed up with a clean cloth. Clean stubborn stains with mild soap and distilled water. Avoid harsh scrubbing. These fibers will not be damaged by diluted bleach, however, other textiles in the home will be. <i>WE DO NOT RECOMMEND THE USE OF BLEACH ON UPHOLSTERED FURNITURE.</i>	Revolution®	X	X	X		X
		Sustain®	X	X	X		X
B	Stain resistance comes from a repellent that permanently encapsulates each fiber. Liquids bead up on the surface and are easily soaked up with a clean cloth. Clean stubborn stains with mild soap and distilled water. Avoid harsh scrubbing.	Crypton Home®	X	X		X	Some
		LiveSmart®	X	X			
		Fortress®	X	X			

***WARNING:** Do not clean indoor upholstered furniture with bleach or diluted bleach as it cannot be thoroughly rinsed away. Not only is bleach a skin irritant, but it may spill onto carpet, throws, clothing and other textiles or surfaces causing irreversible damage.

For stubborn stains and for all-over furniture cleaning, contact a local professional carpet/upholstery cleaning service.

****Note:** only the better known brands are listed as examples for the categories. For the brand name of a specific fabric, please contact the factory.

*****Durability** is determined by testing each fabric using industry standard Martindale pilling and abrasion tests. If a fabric passes with high marks, it is considered to be reliable for heavy duty residential use, even on motion furniture. All Clarity fabrics pass with high marks as do many other fabrics in the Smith Brothers line. Fabrics that are not recommended for motion do not fail the testing, it is simply suggested that they be reserved for stationary furniture. Fabrics that do fail the testing are not even added to the Smith Brothers line.
